## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-19 drawn to products of the formula I variously classified.
- II. Claims 20-22 drawn to methods of use for the products of formula I variously classified.

The above groups are identified as general areas. Accordingly, as groups, they are independent or distinct as the compounds of group I would be capable of more than one use, e.g. treating rheumatoid arthritis, asthma, multiple sclerosis, lupus, etc., and separate search considerations are involved, which would impose a burden if unrestricted.

The above groups themselves are inclusive of patentably distinct subject matter. Accordingly, along with the election of one of the above groups, the following action is also taken.

Claims 1 and 20 are generic to a plurality of disclosed patentably distinct species comprising, for example, the compounds of (1) Example 62, page 84, (2) Example 58, page 84, etc., (3) a method of treating rheumatoid arthritis using the compounds as in Example 52, page 83 etc. and (4) a method of treating asthma using the compounds as in Example 53, page 84, etc. **Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.**

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record

Art Unit: 1626

showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Upon the election of a single disclosed species (e.g. Example, page number and structural depiction), a generic concept, inclusive of the elected species, will be identified by the Examiner for examination. Moreover, whatever specific compound is ultimately elected, applicants are required to list all claims readable thereon.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

An attempt was made to present this requirement telephonically but did not result in an election being made.

### **Conclusion**

Any inquiry concerning this communication or earlier communications from the Examiner should be directed to Rebecca L. Anderson whose telephone number is (703) 605-1157. Mrs. Anderson can normally be reached Monday through Friday 7:00AM to 3:30PM.

If attempts to reach the Examiner by telephone are unsuccessful, the Examiner's supervisor, Mr. Joseph McKane, can be reached at (703) 308-4537.
